2. Where there is no sewer, the licensee shall collect the waste water from a place licensed under section 370 in properly constructed cesspools. Such cesspools shall be periodically cleansed or treated by the licensee in such a way as to render them inoffensive by activated sludge process or the contents thereof shall be otherwise disposed of in such manner as may be required by the Sanitary Inspector, Health Officer, or Chairman.

3. The licensee shall arrange for sufficient supply of water for cleansing the place licensed under section 370.

4. The licensee shall not cause or suffer any skin or hide which by reason of decomposition has become useless for the purpose of leather dressing, to be kept for a longer time than may be necessary in any part of the place licensed under section 370.

5. The licensee shall, at the close of every working day, cause every floor or pavement in the place licensed under section 370 to be thoroughly swept and washed. 6. The licensee shall cause the supply of water in every tank or other receptacle used upon the place licensed under section 370 for the washing or soaking of any skin or hide and not being a liming pit to be renewed as often as may be necessary to prevent the emission of noxious or injurious effluvia from the contents of the tank or other receptacles.

Preliminary

intention to
impose
improvement
levy.

3. Whenever, in the opinion of the Local Government, any improvement work has increased or is likely to increase the profits from the produce from any agricultural land, or to increase the outturn of such produce, within any area, the Local Government may, by notification, declare its intention to impose an improvement levy within that area.

Publication
of particulars.

4. A notification under section 3 shall state the following particulars—

- (a) as full a description of the improvement work as, in the opinion of the Local Government, may be practicable ;
- (b) the object for which such work has been, or is proposed to be, constructed ; and

5. (1) After the expiry of a period for objection to be mentioned in a notification under section 3 the Local Government shall consider the objections and suggestions, if any, received by it and thereafter shall, by notification, declare its intention either wholly to refrain from imposing the improvement levy or to impose the same in the area concerned or in a specified part thereof, whereupon the area in respect of which the Local Government has by such a notification declared its intention to impose the improvement levy shall be deemed, for the purposes of this Act, to be a notified area.

(2) The Local Government may, so far as may be in the manner hereinbefore provided, from time to time include in or exclude from any notified area any area which, in the opinion of the Local Government, has benefited or has not benefited, as the case may be, from the improvement work.

6. No expenditure shall be incurred for the construction of any improvement work in respect of which the Local Government intends to impose an improvement levy, and no improvement levy shall be imposed in respect of any improvement work, unless the Bengal Legislative Council has, by a resolution, recommended the imposition of an improvement levy in respect of such work :

Provided that nothing in this section shall apply to the Damodar Canal (including the Eden Canal) and the Bakreswar Canal.

Imposition of
improvement
levy.

7. When the Local Government is satisfied that a notified area has benefited or is likely to benefit from an improvement work it may, by notification, subject to the provisions of section 6, impose the improvement levy in that area from such date as may be specified in the notification.

The Bengal Development Act, 1935.

(Sections 8—10.)

Estimate of increased outturn of produce from agricultural land.

8. (1) From time to time an officer appointed by the Local Government shall, in accordance with rules made under this Act, and after hearing any objections in the prescribed manner, prepare in respect of land throughout a notified area an estimate of the average increase in the outturn of the produce from agricultural land of any class which, in his opinion, has been or is likely to be made possible by any improvement work, on the assumption that the land has produced and will produce the staple food crop notified under section 39 of the Bengal Tenancy Act, 1885, in respect of that land :

VIII
of 1885

Provided that the Local Government may, at its discretion, direct that the estimate be made on the assumption that the land has produced or will produce some other crop or crops.

(2) The Board of Revenue shall, by notification, publish such estimate and, after a period for objection to be specified in such notification, shall consider the objections and suggestions, if any, received by it and shall report to the Local Government thereon. Thereafter the Local Government may reject the estimate or may, by notification, accept it with or without modification, whereupon the accuracy of any estimate so accepted shall not be questioned in any Court.

(3) Where an estimate has been accepted under sub-section (2) in respect of a notified area before the imposition of the improvement levy, such estimate shall, as soon as may be practicable after the expiry of two years from the date of the imposition of the levy, be revised in the manner provided in sub-sections (1) and (2) for the preparation, publication, and acceptance of an estimate.

Fixing value of increased outturn.

9. The Local Government shall, by notification, fix annually or for such period not exceeding five years as may be specified in the notification the price or prices on the basis of which the value of the average increase in the outturn, as estimated under section 8, from land of any class in a notified area is to be calculated.

Maximum limit and incidence of improvement levy.

10. (1) Notwithstanding anything contained in any other Act the improvement levy shall be imposed in respect of agricultural lands within a notified area at such rate or rates as the Local Government, may, by notification, from time to time declare, and different rates may be so declared for classes of land of different descriptions or having different advantages :

Provided that any rate so fixed shall not exceed one-half of the estimated net increase, resulting from the improvement work, in the profits or one-half of the net value of the estimated increase in outturn.

Such improvement levy shall be payable by the occupiers of such lands within the notified area.

Explanation.—In this sub-section the expression “estimated increase in outturn” means the average increase in the outturn of agricultural produce as estimated under section 8.

(2) The rate or rates of the improvement levy shall be fixed under sub-section (1) for one year or for such period not exceeding five years as may be specified in the notification issued under that sub-section.

(3) For the purposes of sub-section (1) the net increase in the profits and the net value of the estimated increase in outturn shall be estimated, in accordance with rules made under this Act, on the price or prices fixed under section 9.

The Bengal Development Act, 1935.

(Sections 11, 12.)

(4) The Local Government may, by rules made under this Act, declare what persons or classes of persons shall be deemed, for the purposes of sub-section (1), to be occupiers of land but no person shall, by such rules, be declared to be an occupier of land unless, otherwise than as a hired labourer, he cultivates such land or (if it is not cultivated) unless he is in direct possession of such land.

(5) Notwithstanding anything contained in sub-section (4), where a person under the system generally known as "*adhi*," "*barga*" or "*bhag*," cultivates the land of another person on condition of delivering a share of the produce to that person or receiving a share thereof from him, the person whose land is cultivated and the person who cultivates it shall each be deemed, for the purposes of sub-section (1), to be an occupier of such land, and each shall be liable to pay a prescribed proportion of the improvement levy imposed in respect of such land, and any contract to the contrary shall, to that extent, be void.

(6) In the case of any land, the amount of improvement levy realised for any year—

- (a) in respect of the Bakreswar Canal shall not exceed four rupees eight annas per acre ;
- (b) in respect of the Damodar Canal and the Eden Canal shall not exceed five rupees eight annas per acre :

Provided that in the case of any land which was irrigated from the Eden Canal in any year during the ten years prior to the first day of April, 1935, such amount shall not exceed three rupees eight annas per acre.

Additional
improvement
levy in
certain cases.

11. (1) Notwithstanding anything contained in section 10, if in any notified area any unculturable waste, swamp, or sand has, as a result of an improvement work, become culturable land, and such land is thereafter settled with any tenant, the person who settles the land shall be liable to pay, in one sum, an improvement levy of such amount as may be fixed by the Collector, in accordance with rules made under this Act, after considering any objection that may be made in the prescribed manner by such person.

(2) The amount fixed under sub-section (1) shall not exceed one-half of the difference between—

- (a) the amount which the Collector estimates to be the usual *salami* for a like area of land, in the vicinity, similar in its description and its advantages to the land as it is at the time of the settlement, and
- (b) the amount which the Collector estimates to have been the usual *salami* before the commencement of the improvement work, for a like area of land, in the vicinity, similar in its description and its advantages to the land as it was at that time.

Such levy shall be additional to the levy payable under section 10 by the occupier of the land.

Amount of
improvement
levy after
realisation
of capital
cost and
other charges.

12. When in respect of any improvement work—

- (a) the capital cost of such work, including the cost of any extensions, improvements or modifications of the work,
- (b) the interest charges on such capital cost,
- (c) any working loss in any year or years, and
- (d) the interest on such loss,

*The Bengal Development Act, 1935.**(Sections 13—16.)*

as determined by the Local Government, have been recovered in full out of the proceeds of the improvement levy, by such annual allocations as may be prescribed, the amount of the improvement levy to be realised for each year in respect of such work shall thereafter be reduced to such a sum as the Bengal Legislative Council may, by a resolution, recommend :

Provided that in respect of the Damodar, Eden and Bakreswar Canals such sum shall not exceed the amount required to meet the annual cost, as determined by the Local Government, of maintenance and supervision of the improvement work and of collection of the improvement levy.

Explanation.—The term “working loss” means the sum by which the proceeds of the improvement levy in any year or years fall short of the amount necessary to meet—

- (i) the annual allocations for such year or years in respect of the charges specified in clauses (a) and (b), and
- (ii) the cost, as determined by the Local Government, of maintenance and supervision of the improvement work, and of collection of the improvement levy, during such year or years.

Preparation and publication of statements of imposition of improvement levy.

13. The Collector shall, from time to time, prepare and publish in the prescribed form and manner for a notified area or any part thereof a statement showing—

- (i) the name of every person who is liable to pay the improvement levy in respect of any land in such area or part, and
- (ii) the amount of improvement levy to be paid by each such person, annually or otherwise, in respect of such land.

Notice of demand.

14. The Collector shall serve a notice of demand in the prescribed form and manner and containing the prescribed particulars, on every person whose name appears in a statement published under section 13 requiring him to pay the levy by such date or dates as may be specified in the notice.

Republication of statements and revised notice of demand.

15. (1) After forty days from the date of publication of a statement under section 13 the Collector shall, in accordance with rules made under this Act, republish the statement with such modifications as he may have made as a result of representations by persons whose names were included therein, and, subject to any decisions by an appellate or revisional authority, all entries in the statement as thus republished shall be presumed to be correct in every particular for the purposes of this Act.

(2) If the Collector makes any modification referred to in sub-section (1) in the statement he shall serve on the person concerned a revised notice of demand in the prescribed form and manner and containing the prescribed particulars.

Supplementary statements.

16. (1) The Collector may, from time to time, add to or alter in the prescribed manner any statement republished under sub-section (1) of section 15. In such case, the Collector shall publish in the prescribed form and manner a supplementary statement showing any addition or alteration so made, and the provisions of this Act shall apply to such supplementary statement as if it were a statement published under section 13.

(2) Where any addition to or alteration in a statement is required as a result of a decision of an appellate or revisional authority, the Collector shall add to or alter the statement accordingly, and it shall not be necessary to publish any supplementary statement in respect thereof under sub-section (1).

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 2nd September, 1935:—

L. A. BILL No. 30 OF 1935.

A Bill to amend the Factories Act, 1934, for a certain purpose.

WHEREAS it is expedient to amend the Factories Act, **XXV** of 1934, for the purpose hereinafter appearing; It is hereby enacted as follows:—

Short title.

1. This Act may be called the Factories (Amendment) Act, 1935.

Amendment of section 43, Act **XXV** of 1934.

2. In sub-section (1) of section 43 of the Factories Act, 1934, after the word "Chapter" the words "other than the provisions of clause (b) of sub-section (1) of section 45 and of the provisos to that sub-section," shall be inserted. **XXV** of 1934.

STATEMENT OF OBJECTS AND REASONS.

The Factories Act, 1934, prohibits, save in very exceptional circumstances, the employment of women during the night hours; but women managers or supervisors or women employed in confidential capacities may be exempted by rule from this prohibition. The object of the proposed amendment is to remove that power of exemption and to bring the law into line with the International Labour Conventions relating to the employment of women during the night.

The relevant provisions of the Factories Act are given below for the convenience of Members.

D. G. MITCHELL.

SIMLA;

The 12th August, 1935.

Extracts from the Factories Act, 1934 (XXV of 1934).

Section 43 (1).—The Local Government may make rules defining the persons who hold positions of supervision or management or are employed in a confidential position in a factory, and the provisions of this Chapter shall not apply to any person so defined.

Section 45 (1).—The provisions of this Chapter shall, in their application to women workers in factories, be supplemented by the following further restrictions, namely:—

* * * * *

(b) no woman shall be allowed to work in a factory except between 6 a.m. and 7 p.m.:

Provided that the Local Government may, by notification in the local official Gazette, in respect of any class or classes of factories and for the whole year or any part of it, vary the limits laid down in clause (b) to any span of thirteen hours between 5 a.m. and 7-30 p.m.:

Draft Notification.

In exercise of the power conferred by section 39 of the Bengal Public Demands Recovery Act, III (B.C.) of 1913, the Board of Revenue, Bengal, with the previous sanction of Government, is pleased to make the following amendments in Schedule II of the Bengal Certificate Manual, 1933:—

Rule 18A, page 20 of the Manual.—Rents due to a certificate-debtor from subordinate tenure-holders or ryots or under-ryots which have been attached under rule 18 may be dealt with under the eight succeeding rules.

Rule 18B, page 20 of the Manual.—(1) Upon the application of the certificate-holder the Certificate Officer may issue a notice to the garnishee liable to pay the rent calling on him either to pay to the Certificate Officer the rent

due from him to the certificate-debtor or so much thereof as may be sufficient to satisfy the certificate and costs of execution, or to appear and show cause why he should not do so.

(2) Such application shall be made on affidavit verifying the facts alleged and stating that in the belief of the deponent the garnishee is indebted to the certificate-debtor.

Rule 18C, page 20 of the Manual.—Where the garnishee does not forthwith pay to the Certificate Officer the amount due from him to the certificate-debtor or so much thereof as is sufficient to satisfy the decree and the costs of execution or does not appear and show cause in answer to the notice, the Certificate Officer may order the garnishee to comply with the terms of such notice, and on such order execution may issue as though such order were a certificate against him other than one for arrears of rent.

Rule 18D, page 20 of the Manual.—(1) Where the garnishee disputes liability in part only, the Certificate Officer may amend the notice in accordance with the amount admitted, and unless the amount as amended is forthwith paid to the Certificate Officer may make an order under rule 18C.

(2) Where the garnishee disputes the liability *in toto*, and where the Certificate Officer thinks fit to make a determination as to the part or whole liability disputed by the garnishee, the Certificate Officer shall proceed to investigate the dispute, take evidence (if necessary) and determine whether the garnishee is liable for the whole or any part of the amount for which the notice was issued, and may set aside, modify or vary the notice accordingly, and unless the amount of the notice so amended is paid forthwith shall make an order under rule 18C.

Rule 18E, page 20 of the Manual.—The provisions of rule 43 shall apply to an order made under rule 18C.

Rule 18F, page 20 of the Manual.—Where it is suggested or appears to be probable that a third person has a claim to or other interest in the amount, the Certificate Officer may order such third person to appear and state the nature and particulars of his claim (if any) to such amount and prove the same.

Rule 18G, page 20 of the Manual.—After hearing such third person and any other person or persons who may subsequently be ordered to appear, or when such third person or other person or persons do not appear when so ordered, the Certificate Officer may proceed as prescribed in rule 18D.

Rule 18H, page 20 of the Manual.—Payment made by the garnishee on a notice under rule 18B or under an order under rule 18C shall be valid discharge to him as against the certificate-debtor and any other person ordered to appear as aforesaid for the amount paid or levied though such certificate may be set aside or reversed.

Rule 18-I, page 20 of the Manual.—The costs of any application made under rule 18B and of any proceeding arising therefrom or incidental thereto, shall be in the discretion of the Certificate Officer.

PART VI

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly, and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 2nd September, 1935 :—

L. A. BILL NO. 25 OF 1935.

A Bill further to amend the Provincial Insolvency Act, 1920, for a certain purpose.

WHEREAS it is expedient further to amend the Provincial Insolvency Act, 1920, for the purpose hereinafter appearing : It is hereby enacted as follows :—

Short title.

1. This Act may be called the Provincial Insolvency (Amendment) Act, 1935.

Amendment of section 39, Act V of 1920.

2. In section 39 of the Provincial Insolvency Act, 1920,— V of 1920.

- (a) the words “the Court shall frame a schedule in accordance with the provisions of section 33,” shall be omitted ; and
- (b) for the words “entered in the said schedule so far as relates to any debts entered therein” the words “so far as relates to any debt due to them from the debtor and provable under this Act” shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

There is judicial authority for the proposition that a composition under section 39 of the Provincial Insolvency Act, 1920 (V of 1920), releases the insolvent only from debts entered in the schedule, but not from a debt in respect of which the creditor has not taken part in the insolvency proceedings ; whereas section 30 of the Presidency-towns Insolvency Act, 1909 (III of 1909), releases the insolvent from all debts provable in insolvency. A comparison of section 44 of the former Act and section 45 of the latter Act indicates that the effect of an order of discharge is substantially the same under both Acts and there is no good reason why the effect of a compromise should not similarly be the same. This Bill is designed to assimilate the terms of section 39 of the Provincial Insolvency Act, 1920, to those of section 30 of the Presidency-towns Insolvency Act, 1909.

WHEREAS it is expedient further to amend the Provincial Small Cause Courts Act, 1887, for the purpose herein-after appearing ; It is hereby enacted as follows :—

Short title.

1. This Act may be called the Provincial Small Cause Courts (Amendment) Act, 1935.

Amendment of section 17, Act IX of 1887.

2. In the proviso to sub-section (1) of section 17 of the Provincial Small Cause Courts Act, 1887, for the words "security to the satisfaction of the Court for the performance of the decree or compliance with the judgment as the Court may direct" the words "such security for the performance of the decree or compliance with the judgment as the Court may, on a previous application made by him in this behalf, have directed" shall be substituted.

STATEMENT OF OBJECTS AND REASONS.

This Bill is designed to remove certain doubts which have arisen in the interpretation of the proviso to sub-section (1) of section 17 of the Provincial Small Cause Courts Act, 1887. As the section stands, an applicant is required to give security to the satisfaction of the Court at the time of presenting his application. It follows that, in order to ascertain what security satisfies the Court, the applicant must already have made an application in that behalf. There is also some doubt whether the words "as the Court may direct" apply to the deposit of the whole decretal amount as well as to the giving of approved security. The Bill is intended to make it clear that the preliminary application to ascertain what security will satisfy the Court must be made and decided before the substantive application for the order to set aside the decree, and that it is always open to the applicant to adopt the alternative course of depositing the total decretal amount.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 2nd September, 1935 :—

L. A. BILL NO. 26 OF 1935.

A Bill further to amend the Indian Army Act, 1911, for certain purposes.

WHEREAS it is expedient further to amend the Indian Army Act, 1911, for the purposes hereinafter appearing; VIII of 1911.
It is hereby enacted as follows :—

- | | | |
|--|--|---------------|
| Short title. | 1. This Act may be called the Indian Army (Amendment) Act, 1935. | |
| Amendment of section 50, Act VIII of 1911. | 2. In sub-section (2) of section 50 of the Indian Army Act, 1911 (hereinafter referred to as the said Act),—
(a) for clause (d) the following clause shall be substituted, namely :—
“ (d) all pay and allowances ordered by a court-martial under section 43, or by an officer exercising authority under section 20, to be forfeited ;”
and
(b) in clause (g) the words and figures “ or section 42 ” shall be omitted. | VIII of 1911. |
| Amendment of section 73, Act VIII of 1911. | 3. In the proviso to section 73 of the said Act, for the words, brackets, letter and figures “ the punishment specified in clause (h) of section 43 or ” the following shall be substituted, namely :—
“ the punishments specified in clauses (g), (gg) and (h) of section 43 or ”. | |
| Amendment of section 103A, Act VIII of 1911. | 4. After sub-section (5) of section 103A of the said Act the following sub-sections shall be inserted, namely :—
(5A) Where any person is in custody under sub-section (3) or under detention under sub-section (4),—
(a) if such person is in custody under sub-section (3), on the report of a medical officer, or
(b) if such person is detained under sub-section (4), on a certificate from any of the authorities empowered to grant a certificate under section 473 of the Code of Criminal Procedure, 1898,
that, in the judgment of such officer or authority, such person may be released without danger of his doing injury to himself or to any other person, the Governor General in Council may thereupon order such person to be released, or to be detained in custody, or to be transferred to a public lunatic asylum if he has not been already sent to such an asylum.
(5B) Where any relative or friend of any person who is in custody under sub-section (3) or under detention under sub-section (4) desires that he shall be delivered to his care and custody, the Governor General in Council may, upon the application of such relative or friend and on his giving security to the satisfaction of the Governor General in Council that the person delivered shall—
(a) be properly taken care of and prevented from doing injury to himself or to any other person, and
(b) be produced for the inspection of such officer, and at such times and places, as the Governor General in Council may direct,
order such person to be delivered to such relative or friend.” | V of 1898. |

* The Governor General has been pleased to accord the sanction required by section 67 (2) of the Government of India Act.

STATEMENT OF OBJECTS AND REASONS.

Section 50 of the Indian Army Act, 1911 (VIII of 1911), purports to set out all the penal deductions which may be made from the pay and allowances of a person subject to the Act, but sub-section (2) thereof makes no reference to the forfeiture of such pay as corps or working pay which can be awarded as a minor punishment by an officer exercising authority under section 20. It is now proposed to rectify this omission and, at the same time, to omit from the section the reference to suspension from pay which, owing to the deletion of clause (e) of section 43 by the Indian Army (Amendment) Act, 1934 (XXXIII of 1934), is no longer a punishment which can be awarded by a court-martial.

2. Opportunity is also being taken to rectify another omission by amending section 73 of the Act so as to empower a district court-martial to award to a warrant officer the sentences of forfeiture of seniority of rank, reprimand and severe reprimand on the analogy of section 182 of the Army Act (44 & 45 Vict. c. 58).

3. Section 103A of the Indian Army Act, empowers the Governor General in Council to order the detention of persons who, when brought to trial by a court-martial, are found to be of unsound mind and therefore incapable of making their defence, or are found to be " guilty but insane " at the time of committing the alleged offence. There is no provision, however, for the release of such persons. The Bill aims at filling this gap and brings the Indian Army Act exactly into line with the Code of Criminal Procedure in this respect.

The Budge-Budge and Bauria Electric License, 1935.

License for the supply of electrical energy granted by the Government of Bengal under the Indian Electricity Act, 1910.

License is hereby granted to the Calcutta Electric Supply Corporation, Limited, a company registered in England under the English

Companies Acts and having its registered office in London, to supply electric energy in the area with the powers and upon the terms and conditions specified below:—

Short title.

1. This license may be cited as “The Budge-Budge and Bauria Electric License, 1935.”

Interpretation.

2. The several words, terms and expressions to which by the Indian Electricity Act, 1910, or by the rules thereunder, meanings are assigned shall have in this license the same respective meanings, provided that in this license:—

- (d) The term “unit” shall mean the quantity of energy equivalent to a current of one thousand amperes flowing under an electromotive force of one volt during one hour.
- (e) Unless otherwise stated, where roads are mentioned as forming the boundary or part of the boundary of any area in this license, the premises, properties or structures abutting upon either side of such roads are deemed to be within the area referred to. Where any part of a boundary is stated to be a canal or khal or stream or inlet and where the boundary line is stated to run along the same (but not where the line is stated to run across the same), then such canal, khal, stream or inlet shall be deemed to be included in the area.

- (g) The term “small consumer” shall mean a consumer who shall not so agree.

Area of supply.

3. The area above referred to within which the supply of energy is authorised by this license (the area of supply under the Act) is the whole of the area bounded as follows:—

Boundaries.

On the north—By the Bengal Nagpur Railway (main) line running north-east and east from Sankrail Railway Station through Andul and Monrigrum Railway Stations and by the northern loop line through Santragachi Railway Station and by the Bengal Nagpur Railway Shalimar Branch line to the point where this branch line crosses the western boundary of the area of supply under the Howrah Electric License, 1926 (Amended 1932).

On the east—By the western and southern boundaries of the area of supply under the Howrah Electric License, 1926 (Amended 1932), and by a line running north and south across the River Hooghly, such line being (on the left bank) at the centre of Nimakmahal Ghat Road, and this north and south line being part of the boundary of the area of supply under the Calcutta River License, 1912, and the western and southern boundaries of the area of supply under the Calcutta Electric License, 1907, to the junction of the kal known locally as Kaorapukur and Thakurpukur Kal with Tolly's Nullah and by the south-eastern boundary of Kaorapukur and Thakurpukur Kal to its junction with Charial Canal where it passes under the Kalighat-Falta Railway and Diamond Harbour Road.

On the south—By the Charial Canal, from the last mentioned point of junction, to the point where the Charial Canal crosses the eastern boundary of the Budge-Budge Municipality, thence by the eastern, southern and western boundaries of the Budge-Budge Municipality to the point where the eastern boundary of the Budge-Budge Municipality crosses the Orissa Trunk Road and thence by the Orissa Trunk Road to its end at Achipur Ferry Ghat on the left bank of the River Hooghly and by a straight line across the River Hooghly from the south side of Achipur Ferry Ghat on the left bank to a point on the right bank on the northern side of the exit of the Ulubaria Canal into the River Hooghly and by the northern side of the Ulubaria Canal for a distance of 300 yards or thereabouts to the point where the Canal is joined by an inlet from the Purana Kal and by a straight line across such inlet in a north-westerly direction and for about 300 yards (crossing the Cuttack Road) to the north-west side of the bridge carrying the Bengal Nagpur Railway (main) line over another inlet or creek running into the Purana Kal from the west.

On the west—By the Bengal Nagpur (main) line from such last mentioned bridge and passing through Phuleswar, Chengel, Bauria, Nalpur and Abada Railway Stations in a north-easterly direction up to Sankrail Railway Station aforesaid.

The area of supply specified above is shown coloured red on the deposited map.

Situation of generating station.

4. The generating station from which the supply will be taken is situated outside the area of supply but a transformer station or transformer stations will be constructed within the area of supply.

Purpose of supply and compulsory works.

5. (1) Subject to the provisions of this license and the Act and the rules thereunder, the licensees shall be entitled during the continuance of this license to supply energy within the area of supply for all purposes to—

- (a) Large consumers.
- (b) Small consumers.

(2) By way of exception to section 22 of the Act, it is hereby expressly declared:—

- (a) The licensee shall not be under any obligation to supply energy to any small consumer until the Local Government shall, after enquiry, have decided that the local demand in any sub-area as undermentioned is sufficient to justify the licensees being required to supply small consumers in that sub-area. On any such enquiry the licensees shall be entitled to be heard, and regard shall be had to the question whether high tension mains for large consumers have or have not already been laid down to the sub-area concerned. Where such mains have already been laid down the licensees shall commence supply within six months after receipt of notice in that behalf from the Local Government and for that purpose the licensees shall construct any necessary transformer station within or near such sub-area. Where such mains as aforesaid have not previously been laid down the period of the notice shall be extended to at least twelve months. In the event of supply to small consumers being directed to commence in a sub-area to which no such mains have been laid down, the licensees may at their option construct a temporary generating station in such sub-area instead of laying high tension mains to the sub-area. If it be found necessary for the licensees to apply to Government for compulsory acquisition under any law for the time being in force of any land for such transformer station or temporary generating station abovementioned any notice by the Local Government to commence supply shall run from the date on which possession of the acquired land is given to the licensees. If after notice given the licensees shall be prevented from commencing by reason of earthquake, flood, tempest, fire or act of God, or other cause beyond the control of the licensees, the period of the notice shall be extended accordingly.

- (b) The area of supply specified in clause 3 above shall be deemed to be divided into such sub-area as may from time to time be ordered by the Local Government or approved by the Local Government on the application of the licensees, and each such sub-area shall for the purposes of section 22 of the Act be deemed to be the "area of supply" referred to in that section, and the provisions of section 23 of the Act regarding undue preference shall apply as if each sub-area were covered by a separate License. Any sub-area may be formed as aforesaid either before or after any requests for supply have been received from intending small consumers. The rates, terms and conditions upon which small consumers may demand supply in each sub-area may at the discretion of the licensees differ from those in other sub-areas but shall be uniform in each sub-area. In deciding the rates, terms and conditions to be applied to each sub-area consideration shall be given to the cost of the licensees' works proximity of the consumers' load to one of the transformer stations and to any other matters which may be considered relevant, but in no case shall the maximum rates set out in this license be exceeded.

Conditions of supply and rates to be charged.

6. Within six months from the date of the formation of a sub-area or sub-areas referred to in clause 6 hereof, the licensees shall submit to the Local Government a statement of terms and conditions which they propose to make to regulate their relations with persons who are or who intend to become consumers within such sub-area or sub-areas.

Nature of supply.

7. The supply to be given under this license shall be alternating current at a frequency of 50 complete cycles per second.

- (a) For domestic and general purposes other than manufacturing, a medium pressure three phase four wire supply at a pressure of 400 volts between phases and a low pressure of 230 volts between each phase and neutral.
- (b) For manufacturing purposes, up to and including 50 kilowatts connected load by a medium pressure three-phase supply at a pressure of 400 volts between phases.
- (c) For manufacturing purposes, over 50 kilowatts by a three-phase supply at a pressure of 20,000 volts or 6,000 volts between phases.

The pressures stated above shall be as measured at consumers' terminals and shall be uniform, within the limits prescribed by the Indian Electricity Rules, 1922, throughout the area of supply.

Provided that the licensees may, from time to time, with the previous consent in writing of the Government of Bengal and subject to such limitations and conditions as shall be prescribed in writing by the Government, adopt any other system of supply for the purpose of this license.

Limits of rates to be charged in respect of the supply of energy.

8. The rates to be charged by the licensees for energy supplied by them shall not exceed the following maxima, namely:—

At the following rates per month—

- (a) *For lighting purposes*—For any quantity up to 6 units—Rupees 6 only and for each unit over 6 units, annas 8 only.
- (b) *For purposes other than lighting*—Annas 4 only per unit.
- (c) In the case of a method of charge approved by the Government in accordance with section 23, sub-sections (3) and (4) of the Act, the maximum rates shall be such as the Government of Bengal may fix on approving the matter.

Purchase of undertaking.

9. (a) The option of purchase given by section 7 of the Act shall be exercisable on the 30th day of November 1980 and at the end of every subsequent period of ten years during the subsistence of this license. The percentage of the value to be determined in accordance with and for the purposes of section 7 of the Act of the lands, buildings, works, materials and plant of the licensees therein mentioned to be added under the said section to such value on account of compulsory purchase shall be 20 per cent.

(b) In accordance with section 3, sub-section (2), clause (d) (iv) of the Act, it is hereby declared that all the works within the area of supply described in clause 3 of this license shall, and that the generating station referred in clause 4 of this license to be used in connection with the undertaking shall not, form part of the undertaking for the purpose of purchase under section 5 or section 7 of the Act.

(c) After notice shall have been given as prescribed in section 7, sub-section (4) of the Act, all extensions and outlays of money debitable to the capital account of the licensees during the last two years of the period of such notice shall be subject to the previous approval of the Local Government.

Exceptions and variations from the schedule to the Act.

10. In pursuance of clause (f) of sub-section (2) of section 3 of the Act it is hereby expressly declared that—

- (a) Clauses I and IV of the Schedule to the Act shall be excepted from incorporation in this license.

(b) Clauses V, VI, VII, VIII and XII of the Schedule to the Act shall be deemed to be excepted until the Local Government shall order or decide that the local demand for electrical energy is sufficient to warrant the observance thereof in any sub-area as provided in clause 5 and shall give notice in writing of such decision to the licensees whereupon such clauses V, VI, VII, VIII and XII of the Schedule to the Act shall apply in respect of that sub-area.

(c) The following sub-clause shall be substituted for clause X, sub-clause (2), namely:—

“Within six months from the date of this license, the licensees shall give notice by public advertisement, in such a manner as shall be previously approved by the Local Government, of the method by which they propose to charge for energy supplied to consumers and the rates at which such energy will be supplied. Where the licensees have given such notice they shall not be entitled to change the method of charging or the rates at which energy will be supplied without giving notice thereof by public advertisement in the manner aforesaid and giving not less than one month's notice in writing or such shorter notice as the Local Government may deem proper of any such change to the Local Government and the local authority concerned and every consumer of energy who is supplied by them.”

Securing continuity of supply.

11. If it shall come to the knowledge of the licensees (which expression shall for the purpose of this clause and clause 12 immediately following be taken to mean and include the licensees, their employees, servants and agents and their permitted assigns) that any civil commotion or disturbance of the public peace or any strikes or lockout of the nature specified in section 15 of the Trade Disputes Act, 1929, likely to result in the interruption of supply of energy from the power station or to consumers has commenced or is presently apprehended by the licensees, then the licensees or some one on their behalf shall give the District Magistrate or to a Magistrate near the licensees' power station or sub-station immediate and full information with regard thereto.

12. If the licensees shall, in the opinion of the Local Government, have failed to give such immediate and full information as is required in clause 11 hereof or if at any time any interruption of the supply shall occur which in the opinion of the Local Government is attributable to any wilful or preventable default or neglect on the part of the licensees or if the licensees shall in the opinion of the Local Government fail to comply with any of the provisions of any of the clauses of this license or if the general direction and control of the licensees shall cease to be in the hands of British subjects, the license may be revoked.

Some of the special features of the fund are (1) that widowed daughters incapable of re-marriage or children labouring under such mental or bodily infirmities as incapacitate them from earning their livelihood or preclude the possibility of marriage (in case of a daughter) are admitted to its benefits; and (2) that subscribers to the Widows and Daughters' branches are entitled to a refund of 30 per cent. of the premia paid, should the nominee predecease them after five years of admission. DEPARTMENT OF AGRICULTURE, BENGAL.

Calcutta, the 24th September 1935.

Preliminary Forecast of the *Bhadoi* Crops of Bengal, 1935-36.

(*Note*.—On an average of the five years ending 1933-34, the area under autumn rice in Bengal has represented some 6·5 per cent. of the total area under rice in British India.)

Character of the season.—At the outset weather was generally favourable for preparatory tillage. In East and parts of North Bengal low land sowings proceeded satisfactorily with the usual soil moisture while high land sowings progressed slowly owing to insufficient rainfall in April and in the early part of May. From the second half of May general rain facilitated sowings especially in West and parts of North Bengal. As a result of the weak monsoon, conditions were not favourable for growth and development especially in West and parts of North Bengal

and outturn was reduced in consequence. On the whole, the season was fair for the crops.

Acreage.—The total acreage sown with the different *bhadoi* crops this year is reported to be 6,498,600 acres as against 6,301,100 and 6,311,600 acres, respectively, in the corresponding and final forecasts of last year. Of this, the area under autumn rice is estimated at 5,780,400 acres as against 5,562,900 and 5,571,800 acres, respectively, in the corresponding and final forecasts of last year. The large increase in area under autumn paddy is mainly attributed to intensive propaganda to restrict jute cultivation.

Outturn.—According to District Officers' estimates, the outturn of the different *bhadoi* crops for the Presidency works out at 74 per cent. of the normal this year as against 73 per cent. both in the corresponding and final forecasts of last year. Autumn rice is estimated to yield an outturn of 74 per cent. of the normal for the province this year as against 72 per cent. both in the corresponding and final forecasts of last year.

K. McLEAN,

Director of Agriculture, Bengal (offg.).

Dacca, the 26th September 1935.

**Second Forecast of the Sugarcane Crop of
Bengal, 1935-36.**

(Note.—On an average of the five years ending 1933-34, the area under sugarcane in Bengal has represented some 7·2 per cent. of the total area under sugarcane in India.)

Character of the season.—At the planting season weather was generally favourable but drought after germination affected the early period of growth, especially in West and parts of East Bengal. From the second half of May alternate rain and sunshine proved beneficial for growth and development generally. The present prospects are reported to be satisfactory, on the whole.

Area planted.—The total area planted with the crop for the province is reported to be 325,300 acres this year as against 275,900 and 276,200 acres reported, respectively, in the corresponding and final forecasts of last year.

Outturn.—According to the estimates of District Officers, the average outturn of the crop for the province this year works out at 85 per cent. of the normal against 84 and 86 per cent., respectively, in the corresponding and final forecasts of last year.

Condition figure.—The condition figure for the cane crop is estimated at 85 per cent. as against a ten years' average of 84·5 per cent. This means that the condition of this year's crop is equal to about 101 per cent. of the ten years' average.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1935.

First Forecast of the Winter Rice Crop of Bengal, 1935-36.

(*Note*.—On an average of the five years ending 1933-34, the area under winter rice in Bengal has represented some 17·9 per cent. of the total area under rice in India.)

Character of the season.—The weather, at the outset, was generally favourable for preparatory tillage for broadcast paddy. Sowings were also carried on satisfactorily. Rainfall in April and early May, although defective, favoured germination of deep-water paddy. Rainfall from the end of May to June was sufficient for the preparation of lands for winter paddy seedlings and sowings in seed-beds and for the growth of the germinated deep-water paddy. Owing to defective rainfall in July and early August, transplantation of winter paddy progressed slowly in low-land tracts and the operation was delayed in

highlands specially in West and North Bengal. Subsequent good rainfall from the end of August onwards, however, facilitated late transplantation generally. As a result of weak monsoon, transplantation has been late this year and the outturn consequently is likely to be affected.

Acreage.—According to the figures returned by the District Officers, the total area under winter rice is 14,779,200 acres as compared with 14,598,500 and 14,760,000 acres in the corresponding and final forecasts of last year.

Outturn.—From the summary of the district returns appended, it will be seen that 2 districts report a normal crop of 100 per cent., 16 districts a crop varying from 75 to 95 per cent. and the rest below 75 per cent. of the normal.

According to the above estimates, the provincial outturn works out to 80 per cent. as against 78 and 85 per cent. of the normal estimated in the corresponding and final forecasts of last year.

DISTRICT REPORTS ON WEATHER AND CROPS.

For the week ending on the 2nd October 1935.

Summary.—Light rain fell over the greater part of the Presidency. Preparation of lands for spring crops is progressing favourably and sowing has commenced in places. Prospects of standing crops are generally fair. During the week ending Saturday, the 28th September 1935, 794 persons received gratuitous relief in the distressed areas of Murshidabad. In Bankura, 131 persons were employed on test relief works during the week ending Saturday, the 28th September 1935. No report of gratuitous relief has been received from Nadia. The average price of common rice for the province remained practically stationary as compared with that of the previous week.

DARJEELING, THE 28TH SEPTEMBER 1935.

RESOLUTION—No. 686T.R.

Read—

The Report of the Board of Revenue on the Land Revenue Administration of the Presidency for the year 1934-35.

During the year under report, the weather conditions were on the whole favourable in most districts with a satisfactory effect on the outturn of crops. Some damage to crops was, however, caused by floods in Satkhira and Bagerhat subdivisions of Khulna, in parts of Kushtia and Meherpur subdivisions in Nadia, in Narayanganj subdivision in Dacca and in parts of the districts of Murshidabad, Malda, Rajshahi, Jessore, Mymensingh, Chittagong, Tippera and Noakhali. On the other hand want of rain caused a certain amount of damage to crops in parts of the districts of Burdwan, Midnapore, Rajshahi, Murshidabad and to a greater extent in parts of Birbhum and Bankura producing conditions amounting to agricultural distress. Prompt and adequate measures were, however, taken to meet the situation by opening test relief works and by granting agricultural and land improvement loans and gratuitous relief. The amount of agricultural and land improvement loans distributed during the year in the whole presidency aggregated Rs. 7,97,324.

The material condition of the agricultural population showed some signs of improvement owing to a steady, though not very substantial, rise in the prices of paddy and rice in most of the districts. The price of the essential money crop of the province—jute—also showed

definite improvement which may reasonably be attributed in considerable measure to the intensive propaganda for jute restriction undertaken by Government. The improvements noticed were not, however, such as to enable the cultivators to clear off their dues to moneylenders, and they were in many cases unable to pay rents due to their landlords. It is, however, a reassuring feature that there was a steady decrease of fresh borrowing and an increase in repayments during the year under report as compared with the previous year.

In the Chandpur subdivision of Tippera, Debt Conciliation Boards without statutory powers were at work during the year and succeeded in reducing claims of about Rs. 9 lakhs to Rs. 5 lakhs by bringing about purely amicable agreements between creditors and debtors.

2. The current demand of land revenue was Rs. 3,09,43,252 which showed an increase of Rs. 1,51,513 over that of the previous year and collections were 71·64 per cent. of the total and 101·18 per cent. of the current demand. The fact that there were only 1,930 sales as against 30,646 defaults indicated the leniency with which the sale law was administered.

3. In comparison with the previous year, the cost of management of Government estates increased by Rs. 26,903, the percentage of cost on current demand being 8·5 against 8·36 in the previous year. A sum of Rs. 97,419 representing 1·43 per cent. of the current demand was spent on agricultural, sanitary and miscellaneous improvements, while a sum of Rs. 1,23,174 or 1½ per cent. on collections from Government estates, was made over to the district boards of the province for the development of roads and communications in or leading to Government estates.

4. Agricultural demonstrations were carried out in the districts of Jessore, Chittagong, Noakhali, Jalpaiguri, Bogra, Malda and Darjeeling. In Faridpur a sixth batch of Bhadraklok youths was, on the completion of their training in the Faridpur Agricultural Farm, allotted lands. In Bakarganj the twenty Bhadraklok youths who were reported to have formed a house building society in last year's report, completed their houses at Char Fasson and some lands were settled with them. In Noakhali the scheme of settlement of

land with men of the Bhadrak class was cancelled as they failed to fulfil the conditions of settlement. In Rangpur an area of about 100 acres of agricultural land in Khas Mahal Mahadebpur was settled with nine educated Bhadrak youths.

The number of schools and of pupils attending them in Government estates decreased by 373 and 15,935, respectively, during the year under review.

5. A solid block of twenty-two villages with an area of 178 square miles is covered by the Bakarganj colonisation scheme now in its twenty-eight year. The *Tengagiri* chak with an area of 7,249.01 acres which was mentioned in last year's report as the only area which remained to be colonized has since been constituted into a reserved forest. In the 24-Parganas Sundarbans (colonization of which was in its twentieth year) no new area was taken up for reclamation. The total sum advanced by Government for reclamation in the 24-Parganas and Bakarganj Sundarbans and the total income derived from these areas up to the end of the year under report were Rs. 31,00,135 and Rs. 42,31,892, respectively.

6. The general health of the people in the Bakarganj Sundarbans area was good and crops were fair, but as the price of paddy remained still low there was no material improvement from an economic point of view, many persons remaining heavily indebted to Government and to co-operative societies. In the 24-Parganas Sundarbans the health of the colonists was not good and the outturn of crop was lower in comparison with the previous year owing to want of timely rain.

7. Taking the province as a whole, relations between private landlords and tenants did not show any marked deterioration while in Government estates the relations between the khas mahal tenants and the Government tahsildari establishment continued to be generally satisfactory.

8. Thanks of the Governor in Council are due to the Board of Revenue for the efficient administration of the branches of work under the Board.

By order of the Governor in Council,

L. R. FAWCUS.

DEPARTMENT OF AGRICULTURE, BENGAL.

Dacca, the 26th September 1935.

Second Forecast of the Cotton Crops of Bengal, 1935-36.

(*Note*.—On an average of the five years ending 1933-34, the area under the cotton crops in Bengal has represented some 0·2 per cent. of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—At the sowing season the weather was generally favourable for the early crop excepting in the Tripura State where insufficient rain reduced the area. Since then the crop thrived under favourable conditions.

Sowing of late variety commenced in Midnapore under fair conditions.

Area sown.—The area sown with early cotton is reported to be 72,793 acres this year as against 72,903 acres in the corresponding forecast of last year. Of the late crop an area of 500 acres is reported to have been sown this year in Midnapore as against 400 acres reported in the corresponding forecast of last year.
